

ELSEVIER

Sedimentary Geology 113 (1997) 301–302

**Sedimentary
Geology**

Contents Volume 113, 1997

| | |
|--|-----|
| Environmental controls on perennial and ephemeral carbonate lakes: the central palaeo-Andean Basin of Bolivia during Late Cretaceous to early Tertiary times G. Camoin, J. Casanova, J.-M. Rouchy, M.-M. Blanc-Valleron and J.-F. Deconinck | 1 |
| Nearshore, temperate, carbonate depositional systems (lower Tortonian, Agua Amarga Basin, southern Spain): implications for carbonate sequence stratigraphy C. Betzler, T.C. Brachert, J.-C. Braga and J.M. Martin | 27 |
| Development of a lake in a subsiding basin in front of a Saalian ice sheet (Kleszczów Graben, central Poland) K. Brodzikowski, A.J. Van Loon and T. Zieliński | 55 |
| Facies analysis of an Upper Cretaceous high-energy rudist-dominated carbonate ramp (Matese Mountains, central-southern Italy): subtidal and peritidal cycles D. Ruberti | 81 |
| Geochemical discrimination of clastic sedimentary rock sources P.W. Fralick and B.I. Kronberg | 111 |
| Mid-Cretaceous phosphate platforms of the Russian Craton A.V. Ilyin | 125 |
| Quench textures in altered spherules from the Cretaceous–Tertiary boundary layer at Agost and Caravaca, SE Spain F. Martínez Ruiz, M. Ortega Huertas, I. Palomo and P. Acquafredda | 137 |
| Provenance and tectonic implications of heavy minerals in Pliocene–Pleistocene siliciclastic sediments of the southern Apennines, Italy P. Acquafredda, A. Fornelli, G. Piccarreta and V. Summa | 149 |
| <i>Expressed</i> | |
| Recrystallization versus neomorphism, and the concept of ‘significant recrystallization’ in dolomite research H.G. Machel | 161 |
| Hierarchy of high-frequency orbital cycles in Cretaceous carbonate platform strata B. D’Argenio, V. Ferreri, S. Amodio and N. Pelosi | 169 |
| Radar structure of a Gilbert-type delta, Peyto Lake, Banff National Park, Canada D.G. Smith and H.M. Jol | 195 |
| Simulation models of salt-marsh morphodynamics: some implications for high-intertidal sediment couplets related to sea-level change J.R.L. Allen | 211 |
| The unusual hydrodynamical behaviour of freshwater oncolites E.P. Verrecchia, P. Freytet, J. Julien and F. Baltzer | 225 |
| Tectonic systems tract and depositional architecture of the western border of the Triassic Iberian Trough (central Spain) A. Sopeña and Y. Sánchez-Moya | 245 |

| | |
|---|-----|
| Stratigraphy and tectonosedimentary evolution of a late Aptian-Albian carbonate margin: the northeastern Jebel Akhdar (Sultanate of Oman) | 269 |
| J.-P. Masse, J. Borgomano and S. Al Maskiry | 269 |
| <i>Book Review</i> | 281 |
| <i>Terrigenous Clastic Depositional Systems</i> , by W.E. Galloway and D.K. Hobday — C.R. Fielding | 281 |
| Subject Index Vols. 107–113 | 283 |
